FOREWORD

As we The Seniors of 1959, progress step by step into the Future, we will take our places in the world just as the stars have their place in the Heavens. Looking into the night, we see a star that represents a place for us. As we gaze into the magnificent sky we see some stars shining brighter as some of us may in years to come, but each of us has his place after climbing the stairway to the stars of success.

SPARTAN

MRS. OUIDA WILLIS

We dedicate . . .

For her patience and guidance as a teacher, her strong Christian character and her kind tolerant ways, her understanding when our time doesn't seem our own, and most of all, her friendship to each of us, we, the Seniors of the Class of 1959, do hereby dedicate this edition of THE SPARTAN to Mrs. Ouida Willis.

Senior Class History

As we, the Class of '59, stepped upon the stairs that led us into Sparta High School as freshmen, we numbered eighty-eight. Bewildered and unsure, but smiling, we began to climb the stairs toward graduation. We elected Bobby Atwood our class president and Mary Ruth Wyatt our Homecoming Queen. Our main extracurricular activities were Dramatics, Bible, Pep, and Glee Clubs.

With increased knowledge and equally increasing confidence, we took another step on the stairs which would gradually lead us to the top. We were now sophomores, seventy-nine in number. Glona Hines was elected class president and Betty Jo Andrews Homecoming Queen.

Our junior year began as we neared the top of the stairs. Our class of seventy-one elected Shirley Fender president and Louise Church Homecoming Queen. Many wonderful activities filled our joyful junior year, the main ones being the ordering of our class rings and the Junior-Senior Banquet carrying out the theme of "Stairway to the Stars."

Finally we have reached the top of the stairs and are watching the beautiful world about us unfold with the realization that we are graduating. Yes, at last we are seniors, a class of sixty-five. Our class president is Wayne Brooks and I was elected Homecoming Queen. Some of the most joyous occasions of this year have been receiving our class rings, publishing THE SPARTAN, the Junior-Senior Banquet, selecting superlatives and mascots, and now our graduation exercises.

Yes, we have completed the great adventure we began years ago. We have climbed the "Stairway to the Stars." And now, we, the Class of '59, leave our position at the top of the stairs to our followers here at Sparta High.

Senior Class Poem

WE HAVE FOUGHT A GOOD FIGHT

In our freshman year war was declared
On the evils of ignorance and poverty;
Immediately we launched a full scale war
And sought to gain a sovereignty.

We hit the beach-head with weapons in hand,
And gained a foothold in the landing;
Assignments around us like shrapnel did fall,
But we fought all the harder still standing.

By studying we planned our counter-attacks;
Each maneuver added more to our story,
Using every means possible the victory to win;
Till the day we could stand in our glory.

Our teachers have been reinforcements;
They willingly gave us assistance,
And lo, behind us came other recruits
Trying poverty to displace from existence.

Though victory we're nearing the enemy fights harder;
Each assignment more difficult to fill;
All the harder we'll fight till we praise the glad name
Of victory at the top of the hill.

When we leave our school and go into the world
The enemy will still be demanding,
But remembering the war of our high school days
We'll fight, fight hard, and fight standing.

Senior Class Song

STAIRWAY TO THE STARS

We have climbed our stairway to the stars,
And now we must say good-by;
But in our hearts will always stay
Memories of old Sparta High.

May future years bring us joy
And though the years go by fast;
May each remember always
The present that will be the past.

The teachers who have built our stairway
We'll remember forever;
They have made our star the brightest
And we'll forget them never.

Dear friends, it's time for parting
May each of your stars keep shining;
May all your dreams come true
And each cloud hold a silver lining.

Senior Class Prophecy

At last the space age! Everywhere people are hurrying to and fro, experimenting and inventing, and my new time machine stands ready to give you a glimpse into the future. Look with me; perchance some familiar face you may see.

It surely seems impossible, but it is he, the same fellow, still trying to invent a two headed coin. Who would have thought he possessed such stick-a-bility, and just why do you suppose DAVID DANCY needs such a coin? There he is still running his mouth, but why all the excitement? Oh, I see a challenge ROBERT LOUIS ANDREWS is making to race his old Plymouth against any space ship, even the one invented by BERTIE MACK ANDERSON from Galax to Sparta.

Ah, a modern ship garage! How unique! Surely some meticulous person had a hand in that building—"Edward's Space Ship Retreat" with Mr. and Mrs. George Edwards proprietors. I might have known that Carol and George would someday make a name for themselves. Just take a look at that, the eccentric poet of the hour, AUBREY BROOKS, who is telling GEORGE HARRIS that he has no use for these modern jet-propelled machines. All he wants is his good old 1949 Chevey.

But here comes a young lady who evidently enjoys the space age. Just who is she and the chic young jet pilot talking with her? Yes, it is VIVIAN PARLIER, getting out of her space ship and complimenting ARION ANDREWS on his recent promotion as jet pilot of the new super-sonic jet. Vivian says this is the life, and the only way to travel—no trees and fences to jump out in front as she drives along.

Ah, hold everything! What an attractive trio of space age beauties, evidently giving information to an old friend—just a moment while I turn the audio dial on my time machine and we shall know what is taking place. Beauties, yes, and they haven't aged a day—LINDA CAUDILL, LINDA TRUITT, and SHIRLEY FENDER—personnel managers for "Hugh Shepherd Space Flight to the Planets." And this is a reunion with their old friend BILL IRWIN, who is not seeking information on flights into space, but just back home on a visit, and desiring news about everyone. Bill has seldom been home since he took up his duties as instructor in mechanical engineering in a French university. Just listen to the news they have for him about his old classmates: BYRON BLEDSOE now offers transportation to the moon. I knew he would reach the top some day. PAUL WOOTEN, who will be a second Elvis Presley, has an income of several million a year. ROY EVANS, too, is in the space ship business, and is still aware of low hanging limbs as he travels around. LIBBY ROYALL not only plays basketball, but is an efficient coach. We should have known she would make it after she adopted a new motto: "Don't push me around on the basketball court." You should see old Bill laugh. "But I have news for you," says Bill, "WELTER HAMM is back in England again in search of another English Ford. I met him in New York as I came over." Now listen to the latest, our own BYRON WOODRUFF not only finished school at Lees McRae, but continued his scientific studies at State College, then at Massachusetts Tech where he is one of the top instructors in nuclear science. OPAL EDWARDS is at Sparta, and while she waits for Byron, she has studied at A.S.T.C. She and her sister, IRENE also a graduate of A.S.T.C., operate the "Edwards Kindergarten."

"Well, it was nice seeing you," said Bill as he journeys on—Now what can MABLE BOWERS be doing in that neat, but rather odd looking, uniform? What do you know—her job is news reporter for the inhabitants of the planet Saturn. Let's listen to her latest information: Blair Products sold on Saturn and Mars as same as on Earth. The very top salesman for the company, our own WILLARD RECTOR and EMMA JEAN BLEVINS, an instructor in planet geography, commute each day between Mars and Saturn—it is rumored that Emma Jean is still inquiring about Dickie who has escaped into outer space. WANDA PRUITT is teaching French to the moon people. BETTY LOIS ESTEP, tired of trying to spring her man trap, has become dancing instructor in Hawaii. The Hula girls don't stand a chance.

"Oh, I almost forgot," says Mable. "Have you heard that BOBBY ATWOOD is now captain of the moonmen football team? JIMMY BROOKS and J. R. FENDER are coaching the football players on the unnamed planet." Mable is taking something out of her briefcase. What is it? Why, it is an outer space newspaper. "I will read you just a few headlines," says Mable. BARBARA HICKS and RACHEL BLEVINS have been awarded medals for having been the best chemistry teachers on Uranus. LOUISE CHURCH has been voted the prettiest girl in the universe. People no longer run and hide when they see a bright red streak in the sky, since it has been revealed that it is none other than LARRY SETZER. "I will have to be going now," says Mable. "I will see you on my next visit." She is now getting ready to take off. There she goes. Good-bye, Mable.

Well, what next? Why all the excitement? Hanes just isn't the same place—no wonder, CHARLES DEBOARD invented a time machine to help him get to work on time and he got there three days ahead of schedule. What? Charles is suing the company for \$200,000. Well, I don't blame him.

Look what a beautiful town. It's Reno, Nevada. But why are the people running into buildings and crawling under cars? I don't believe it. But it's true! History has finally repeated itself. Here comes JOHN ROYAL down Main Street with two six-guns buckled on. He is going into the Moon Shine Saloon owned by CARROLL and SONNY SMITH.

What's this? It looks like a rabbit race. No, it's not. The rabbits are chasing the dogs. I knew RICHARD JOINES would make a mistake sooner or later.

A smog has just come over the screen of my time machine. No, it's chicken feathers, and there they are—GEORGE OSBORNE and his wife ELAINE—chasing chickens to take to ELSIE HIGGINS' butcher shop. Elsie was once employed in a hospital. WILMA ABSHER now works in her place.

My, that's an odd looking building beside Elsie's butcher shop—it's a beauty parlor. The time machine is taking us inside. What a beautiful girl! Why, it's SHELDA JEAN SPARKS. She must own the place. A sign over the door says "Will give bald-headed men hair treatment from 7:00 a.m. until 4:00 p.m." She surely has a great many bald-headed customers today. WAYNE and BOBBY BROOKS are here for scalp treatment, but it looks as if they're too late.

A large building is coming into view. It looks like a factory. I should have known—JOYCE and DIXIE PRESNELL'S Antique Factory. They have been manufacturing antiques for several years. These girls are really making a name for themselves.

My time machine says EDWARD EVANS will make a fortune if he can make parallel lines meet.

Now who could this be? An old bald-headed, snaggled toothed codger. Well, what next? It's good ole EARL DEAN CROUSE still at A.S.T.C. Believe it or not, he is a sophomore!

What is that odd looking thing MAXINE CHAPPELL is standing on? Oh, it's her new invention. She claims she will make millions with it. It's used by short women when kissing tall men. She says this keeps one from straining the muscles.

Well, here comes WANDA TOLIVER—it is rumored that she married that midget wrestler. The message I received concerning that isn't very clear, but the neon sign that greets my eyes is truly rewarding. "Toliver's Daily News," at last Sparta's very own newspaper. With Wanda we find her able assistant and co-editor, SUE MILES.

ANNIE WAGONER has finally grabbed her gun. There she goes, and she is after SAM CAUDILL. Annie claims that Sam, now head manager of Irwin Motor Co., refuses to back a guarantee. Her many years as proprietor of Sparta's new Space Hotel has given her more self-confidence than ever.

Ah! convenience is the keynote. RICHARD NICHOLS and his wife NANCY now reside in their solar heated home. This enables Richard to spend more time with Nancy, instead of having to cut wood, or gather coal.

BOBBY HAMM is getting his space school bus down after having returned a crown of earthlings home, that are on vacation from the University of Neptune. Incidentally, EDITH EVANS is superintendent of this famous organization.

What is this? It's a bird. It's a plane. No, it's LINDA ROSE JOHNSON. She just streaked by in her Chevrolet with the newly installed jet engine.

Of what benefit are jet engines in cars? TEX SPICER is listed as only one casualty out of many of Linda Rose's jet driven cars. Tex's girl friend is overjoyed to know that he will recover.

There is LLOYD SANDERS. It looks as if he has caught himself a woman, since he has gotten into mink country.

Well, who is this blonde WAVE? It's GLONA HINES BENNETT, who joined the WAVES to keep pace with her husband who is in the Navy.

Who can this dignified looking girl be, and what is she doing? It is MARY RUTH WYATT, experimenting with her newly developed electronic brain. She says it will be used in determining the possibility of life existing on unexplored planets. It will also be used to find out what her husband, Billy, is doing out so late at night.

It is time for me to turn off my machine. We must sit back and wait for the years to pass so these predictions will come true.
